National Chevrolet Festival Cancellation

14 August 2021 - Keith Taylor

Unfortunately we have had to cancel the 44th National Chevrolet Festival in Yarrawonga. The Festival originally scheduled for October 2020 is a victim of the uncertainty surrounding Covid lockdowns, it was postponed to Oct 2021 when it was hoped that things would be better. Obviously that is not the case with what is going on in NSW at the moment and the fact that Victoria went into lockdown with 4 hours notice, the Festival committee made the hard call to cancel the event. On behalf of the Chevrolet Car Club of Victoria I would like to thank Craig O'Donohue, David Shaw, Ian Cole, Ron Baker, Michael Johnson and Patrick Prusakowski for the hard work they put into organising what was set to be a terrific weekend, also I know the crew would want me make mention of the advice and input that Peter Mantel had before his passing as he was an integral part of the committee.

UPDATE, September 10:

The Victorian Government has confirmed today that the eligibility criteria for the Club Permit scheme will remain at 25 years or older.

Earlier this year the State Government proposed changing the rule to a 30 years or older minimum to bring Victoria into line with other states using similar heritage registration/permit systems.

However, Ben Carroll, Minister for Roads and Road Safety confirmed in a public notice today that the 25 year rule would remain in place.

NOTICE OF DECISION

Road Safety (Vehicles) Regulations 2021

I, Ben Carroll, Minister for Roads and Road Safety and Minister responsible for administering the *Road Safety Act 1986*, give notice in accordance with section 12 of the *Subordinate Legislation Act 1994* of my decision to make the proposed Road Safety (Vehicles) Regulations 2021 (the proposed Regulations).

A regulatory impact statement in relation to the proposed Regulations was made available for public comment from 11 June 2021 until 8 July 2021. The Department of Transport received 1060 submissions.

After consideration of the submissions in accordance with section 11 of the *Subordinate Legislation Act 1994*, I have decided to proceed with the making of the proposed Regulations with the following amendments:

- Maintaining the eligibility for club permit registration at 25 years (there was consideration of increasing the eligibility to 30 years).
- Reinserting regulations relating to the Hazardous Area Authority. These requirements are to remain in the proposed Regulations until corresponding amendments are to be made to the Bus Safety Regulations 2020.
- Amendment of penalty amounts for certain offences under the proposed Regulations.
- Other minor, miscellaneous, and technical amendments.

The following regulatory requirements have also been omitted from the proposed Regulations. However, I intend to implement these reforms through amendments to the proposed Regulations after the proposed Regulations commence:

- Regulations which would have required vehicles over 15 years of age to be recorded on the written-off vehicles register when classified as a statutory write-off or a repairable write-off.
- Requiring light vehicles or light trailers with a fixed gas fitting to present a gas certificate or gas compliance plate at the time of registration of that vehicle or trailer.
- Amendment of the eligibility for registration concession by charitable or benevolent organisations.

Minister for Roads and Road Safety

RHD 2022 Corvette Production For Australia, New Zealand Starts This Month

The eighth-generation Chevy Corvette Stingray is going international, even selling in right-hand drive configuration for certain overseas markets. Now, new right-hand-drive 2022 Corvette models for Australia and New Zealand are slated to start rolling off the production line this month.

In a recent social media post, General Motors announced the start of production for new 2022 Corvette models destined for Australia and New Zealand. The announcement, made via GM Speciality Vehicles (or GMSV, General Motors' brand replacement for Holden) also included the news that General Motors had registered a factory-built right-hand drive C8 Corvette for validation and testing purposes in the region, indicating that the tester would soon hit the road in Victoria.

The start of regular production for the 2022 Corvette Stingray began at the GM Bowling Green Assembly plant in Kentucky during the week of September 6th. Originally, production of the 2022 Corvette was slated to begin earlier this summer, but due to a variety of factors, including parts shortages and the COVID-19 pandemic, the production restart date was pushed back.

Looking ahead, customers in Australia and New Zealand will likely have access to the upcoming Chevy Corvette Z06 as well, as indicated by a recent trademark filing covered by GM Authority in July.

Subscribe to GM Authority for more mid-engine Corvette news, Corvette C8 news, Corvette news, Chevy news, and around-the-clock GM news coverage.
